

PROFESSIONAL SUMMARY

Experienced Network Engineer with 5+ years of progressive responsibility at Impact Networking. Proven track record leading complex IT projects including tenant migrations, O365 deployments, and network installations. Certified in multiple CompTIA and Microsoft disciplines, with deep expertise in cloud, hybrid, and on-prem environments. Skilled in Active Directory, Entra ID, and endpoint management solutions like Intune and Autopilot.

PROFESSIONAL EXPERIENCE

Mid-size MSP

Network/Project Engineer **Nov 2020 – Aug 2025**

- Promoted from Helpdesk Analyst to Network Engineer through consistent performance and leadership.
- Led multiple high-impact projects including:
 - **Tenant Migrations:** Seamlessly transitioned clients to new environments with minimal downtime.
 - **Data Sanitizations:** Ensured secure and compliant data handling across systems.
 - **Office 365 Migrations:** Migrated hundreds of users to O365, optimizing collaboration and security.
 - **Network Installations:** Designed and deployed scalable network infrastructures for diverse clients.
 - **Intune Enrollments & Autopilot Deployments:** Streamlined device provisioning and endpoint management.
- Collaborated cross-functionally with internal teams and clients to deliver tailored IT solutions.
- Maintained and optimized Active Directory and Entra environments for multiple tenants.
