Technical Account Manager

Large Regional MSP | Waukee, IA (May 2022 - August 2025)

Acted as the primary IT administrator, providing IT expertise and knowledge, for over 90 clients. Maintained documentation, resolved IT issues, and provided consultation and planning for future IT projects or changes.

- Provided knowledge and escalation to a team of front line technicians.
- Worked directly with clients and vendors to identify and resolve IT issues.
- Held meetings with executives and owners to provide project proposals, planning, and implementation.
- Maintained a large variety of environments using multiple different software, technologies, and hardware.
- Maintained strict Cybersecurity requirements for financial and healthcare organizations. PCI compliance and HIPAA requirements.
- Troubleshot issues concerning routing, firewall policies, DNS, and connectivity.
- Ensured that documentation for clients was up-to-date, with correct information, and provided all the knowledge needed for the client or issue.

Store Support Specialist

Internal IT Across 16 States | Ankeny, IA (October 2019 - May 2022)

Provided remote support and live call support for store troubleshooting and resolution. Worked directly with store management and district supervisors.

- Was part of a team that serviced over 2,300 stores in 16 states.
- Assisted remotely in the installation of new machines and devices.
- Provided over the phone troubleshooting for store hardware and software.
- Ensured stores were operating efficiently and with minimal downtime.

Help Desk/Tutor

Community College | Fort Dodge, IA (June 2017 - August 2019)

Hired to provide part-time help desk support throughout the summer and school year for the college. Provided tutoring services for first- and second-year students in the same course of study.
